Haven's Sustainability Actions & Goals 2026

Havens Sustainability Plan is 'live' and evident across our everyday practices, curriculums, intentional teaching, children's play and service decisions.

This includes a whole community awareness and approach to sustainability.

Below are our current practices and goals we are working towards.

HAVEN

EARLY LEARNING

Current practices

Continue environmentally responsible actions:

- Worm Farms (in multiple rooms)
- Active gardens and gardening programs (across the centre)

Continue social and economically responsible actions:

- Upholding United Nations (UN) Goal 3: Good Health and Well-being
- Upholding UN Goal 4: Quality Education
- Promoting child voice and child rights.
- Re-use and recycle (Re-usable cloths for cleaning and facewashers, recycling bins and recycling programs, reusing art supplies and second-hand resources)
- Food in play (biodegradable/environmentally friendly option, re-use and rotating resources, flour is donated)

HAVEN

EARLY LEARNING

Ongoing Goals

- Reviewing & adapting sustainability commitment
- Use Environmental and Sustainability 3-monthly audit to guide changes as needed and develop new sustainable goals.
- Continue to meet NQS area 3.2.3 – Environmentally Responsibility
- Environmental Awareness Group
- Professional Development Opportunities
- Whole community + Family awareness: Feedback from stakeholders on sustainability commitment and current practices.
- Researching, finding and purchasing Australian made resources and First Nation owned resources. (UN Goal 12: responsible consumption and production)
- Water Tanks (UN Goal 7: Affordable and clean energy & UN Goal 13: Climate Action)
